## LETTER OF SATISFACTION

We have been cooperating with Mr Piotr Pawliszyn and the company KONSULTOR Doradztwo i Księgowość for almost 2 years. Earlier we were provided services by other local accounting office in Radom.

Yet, only cooperation with the company KONSULTOR allowed us to organize our accounting in such a way that it meets our requirements connected with management of our company.

Piotr Pawliszyn is the first person in Poland who combined accounting knowledge with the reality of pursuing business activity by a foreign company in this country.

We have also obtained necessary information for management of our company, including appropriate reports concerning results of our company. We are also preparing together for a financial report, planning appropriate actions much earlier, which could not be obtained from accounting company that provided services for us before.

We recommend the company KONSULTOR Doradztwo i Księgowość as a reliable accounting office and a counselling company.

Roberto Casali  
Proxy of the Management Board  
Director for Poland
